Estimated Value

Estimated Value:

\$945,000

Estimated Value Range:

\$878,000 - \$1,010,000

Estimated Value Confidence:

Estimated Value as at 23 March 2026. An automated valuation model estimate (Estimated Value) is a statistically derived estimate of the value of the subject property. An Estimated Value must not be relied upon as a professional valuation or an accurate representation of the market value of the subject property as determined by a valuer. For further information about confidence levels, please refer to the end of this document.

Mapping Data

Any map that is produced is not intended or designed to replace the certificate of title or land survey information. If you need a certificate of title or land survey information for any purpose then you can order these separately from CoreLogic or the relevant government body.

Development Approval Data

Any data or information containing development approval information (**Development Approval Data**) has been obtained from a variety of third party sources. The Development Approval Data: (a) is only available for about 60% of total building consents in Australia due to limitations with the collection of this data; (b) relies on the accuracy of the description against the Development Approval Data provided to CoreLogic by third parties; (c) may differ from the actual construction cost (where it contains an estimated construction cost) and (d) any errors in entry of property details may lead to incorrect Development Approval Data being provided and the recipient should always check the appropriateness of the information contained in the development approval report against the actual property or surrounding properties (including physical attributes of such property).

State and Territory Data

Contains property sales information provided under licence from the Land and Property Information ("LPI"). RP Data Pty Ltd trading as CoreLogic is authorised as a Property Sales Information provider by the LPI.

Schools Data

Product Data licenced by CoreLogic under a Creative Commons Attribution licence. For details regarding licence, data source, copyright and disclaimers, see www.corelogic.com.au/aboutus/thirdpartyrestrictions.html All information relating to Schools provided by CoreLogic is as a courtesy only. CoreLogic does not make any representations regarding the accuracy or completeness of the data. You should contact the School directly to verify this information.

Estimated Value

An Estimated Value is generated (i) by a computer driven mathematical model in reliance on available data; (ii) without the physical inspection of the subject property; (iii) without taking into account any market conditions (including building, planning, or economic), and/or (iv) without identifying observable features or risks (including adverse environmental issues, state of repair, improvements, renovations, aesthetics, views or aspect) which may, together or separately, affect the value.

An Estimated Value is current only at the date of publication or supply. CoreLogic expressly excludes any warranties and representations that an Estimated Value is an accurate representation as to the market value of the subject property.

How to read the Estimated Value

The Confidence is based on a statistical calculation as to the probability of the Estimated Value being accurate compared to market value. An Estimated Value with a 'High' confidence is considered more reliable than an Estimated Value with a 'Medium' or 'Low' confidence. The Confidence is a reflection of the amount of data we have on the property and similar properties in the surrounding areas. Generally, the more data we have for the local real estate market and subject property, the higher the Confidence level will be. Confidence should be considered alongside the Estimated Value.

Confidence is displayed as a colour coded range with red representing low confidence, through to amber which represents medium confidence to green for higher confidence.
